

# The Weeton Show

## Spectacular event for July 25th 2010

### Dear Sponsor

There's a feeling that Spring is on it's way and planning for Weeton Show 2010 certainly is!

It doesn't seem like 5 minutes since we packed up the 2009 Show. What a great Show we had, despite the poor weather, the crowds flocked to the Show. We were particularly pleased with record breaking entries in the produce, horticulture and sheep sections. The new poultry classes were hugely popular resulting in the need for more exhibitor space this year.

Weeton and District Agricultural and Horticultural Show are very fortunate to have such a hard working committee who work tirelessly in the run up to the Show. Their main goal is to ensure they organise a fantastic day out for all the family. The committee work hard to minimise the running costs wherever possible, however, more red tape and increasing costs relating to holding a public event means the Show finds there is a very fine balance between keeping entry prices down, prize money covered and providing a good days entertainment.

We do hope that you will be able to support the 2010 Show. Martyn Rainford or Emma Harris will be in touch with you to discuss sponsorship in the meantime if you have any queries, please do not hesitate to contact Martyn Rainford on 01423 733160.

**Sponsorship is extremely important to the Show allowing us to cover some of our running costs before we open the gates on show day. Sponsorship gives you the opportunity to promote your company and/or products or is just another way to support a great local event. If you'd prefer to sponsor without a big fan fare then that is also possible.**

The website at [www.weetonshow.com](http://www.weetonshow.com) had 2,500 hits in the month leading up to the Show. During the 2009 Show we had 3,000 people through the gates. Not all from the local community. Many people travel from far and wide to exhibit.
